

1. What do you think is the relation of Art App in your program?

As a BSIS student, I think that in order to improve website designs in the future, it is important to understand the relationship between the art appreciation and my program. It gives me an opportunity to not only help with the development of new websites but also to have a greater understanding of the creativity that goes into the designs.

2. What is your expectation in this subject?

I'm really looking forward to this subject because I want to learn more about art and get better at designing websites. I hope to understand the artistic side of things and improve my skills in web design. This subject is a chance for me to blend technology and creativity, aiming to create websites that not only work well but also look great.
